## PRO PRIMER ASPHALT PRIMER

### PRODUCT DESCRIPTIONS:

DEWITT'S PRO PRIMER ROOF & CONCRETE PRIMER is a thin penetrating solution of refined oxidized asphalt and petroleum solvents. It preserves, resaturates and prolongs the life of dried-out roofing felts.

### USES:

DEWITT'S PRO PRIMER ROOF & CONCRETE PRIMER is used as a general priming coat on concrete decks, metal roofs, gypsum cinder blocks, floors, walls, and asphalt roofs. An excellent primer prior to the use of hot asphalt, fibered asphalt coatings, asphalt emulsions, reflective coating, or asphalt adhesives. It is not recommended for use on tar roofs.

### APPLICATION:

Apply DEWITT'S PRO PRIMER ROOF & CONCRETE PRIMER to a dry and dirt free surfaces with brush, roller or spray at a rate of one gallon per 100 square feet. Application rate will depend on condition and porosity of surface to be primed.

### SPECIFICATIONS:

Meets ASTM Specifications D-41 and Federal Specifications SS-A-701B.
