PRO PRIMER ASPHALT PRIMER

PRODUCT DESCRIPTION:

DEWITT'S PRO PRIMER ASPHALT PRIMER is a thin penetrating solution of refined oxidized asphalt and petroleum solvents. It preserves, resaturates and prolongs the life of dried-out roofing felts.

USES:

DEWITT'S PRO PRIMER ASPHALT PRIMER is used as a general priming coat on concrete decks, metal roofs, gypsum, cinder blocks, floors, walls, and asphalt roofs. An excellent primer prior to the use of hot asphalt, fibered asphalt coatings, asphalt emulsions, reflective coating, or asphalt adhesives. It is not recommended for use on tar roofs.

APPLICATION:

Apply DEWITT'S PRO PRIMER ASPHALT PRIMER to a dry and dirt free surfaces with brush, roller or spray at a rate of one gallon per 100 square feet. Application rate will depend on condition and porosity of surface to be primed.

SPECIFICATIONS:

Meets ASTM Specifications D-41 and Federal Specifications SS-A-701B.
