# CLEAN-A-ROOF

**REMOVES BLACK STAINS CAUSED BY ALGAE AND MOSS**

## PRODUCT DESCRIPTION:

DeWitt's Clean-A-Roof concentrated formula is uniquely designed to clean and remove black roof streaks and stains caused by mildew, mold, algae, moss, and lichens with its foamy action cleansers. A non-bleach formula makes it safe around plants and grass. DeWitt's Clean-A-Roof is water-based, non-solvent, biodegradable, cold water effective, non-toxic and phosphate free.

## USES:

DeWitt's Clean-A-Roof works on all types of roofs, brick, stucco, stone, wood, siding, patios, walkways, awnings, RV's, outdoor furniture, decks and more.

## APPLICATION:

Protect eyes and skin from contact with this product. Surface may be slippery when applied. Follow extra precautions when using this product on roof. Apply at temperatures of 50°F and above, with calm winds.

For Heavy Cleaning: Mix 6-10oz of Clean-A-Roof to a gallon of water inside a garden sprayer.

For Medium Cleaning: Mix 4-6oz per gallon.

For Light Cleaning: Mix 2-4oz per gallon.

Mix and apply to area, starting from the bottom and working up. Let Clean-A-Roof's foamy action set 15-20 minutes, then rinse with water, starting from the top and working down. If area is still soiled, repeat procedure and let product set for 30-40 minutes before rinsing. If area is extremely soiled light scrubbing and high water pressure is advised but caution is needed on shingled roofs making sure one does not disturb granules.

Note: If contact with plants or shrubs, rinse with water.

Tip: The 32 oz hose attachment bottle can be refilled with Clean-A-Roof or Protect-A-Roof. (32 oz hose attachment bottle dispenses at rate of 4 oz per gallon.)

## PACKAGING:

32 oz hose attachment bottle, 1 gallon, 5 gallon & 55 gallon sizes available.
